Message from the Editor-in-Chief

This field finally has a dedicated journal where its broad community can communicate and exchange its latest findings in one centralized place. This field was built stone by stone from the many scientific contributions from extremely diverse horizons, studying gene silencing in plants, position effect variegation in drosophila or quelling in fungi. This field has achieved maturity, but a lot remains to be discovered! Our aim is to publish manuscripts from all horizons that will have a high impact on the development of the field. Let's have fun and wish *Non-Coding RNA* a long and rewarding life!

Editor-in-Chief

Prof. Dr. George A. Calin

Aims

Non-Coding RNA (ISSN 2311-553X) is an open access journal which provides an advanced forum for research studies on non-coding RNAs and their regulatory roles. We encourage the publication of original research papers, short reports, communications, snapshots and conference reports, timely reviews and of commentaries on hot topics of interest to the non-coding RNAs community.

Scope

- Functional studies dealing with identification, structure-function relationships or biological activity of all types of non-coding RNAs
- Analysis of RNA processing, RNA binding proteins, RNA signaling and RNA interaction pathways
- RNA analyses, bioinformatics, new tools and technologies
- Translational studies involving long and short non-coding RNAs

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science), PubMed, PMC, CAPus / SciFinder and other databases

Rapid Publication

A first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2023)
